

### **Moon Shadows Trailer / Boat / Recreational Vehicle Parking Policy**

Moon Shadows ByLaws require boats, trailers, and recreational vehicles (BTRV) be stored off site and not on a member's lot. Because Moon Shadows is a boating community and because there are times in the Spring and the Fall that members work on their BTRVs to prepare them for summer use or ready them for winter storage, Moon Shadows will provide a two (2) week period in the Spring and Fall to allow for this preparation time.

Outside of this two (2) week period in the Spring and Fall, if any member needs to store their BTRV on their property to work on it, or for any other reason, then they must send a notice to [info@moonshadowshoa.org](mailto:info@moonshadowshoa.org) to receive permission from the MSHOA Board to do so. A reasonable time to expect, and a time the MSHOA Board will not unreasonably reject, will be three (3) calendar days. If there are extenuating circumstances requiring more than three (3) calendar days, please provide details and the MSHOA Board will consider each request on a case-by-case basis.

Failure to abide by this policy will result in further actions, up to and including fines.
